Last year, we obtained logs from The Base's chat group on the communication platform Riot. In the chat logs, Francois Kemp, as "cempa," serves as a South African contact for the group. Several members express a desire to visit SA & view the Suidlanders as a model to emulate.

- Norman Spear
- doomsayeth & d00mr were hoping to get in touch with you because they have a particular interest in the Suidlanders and I think one of them was interested in possibly visiting SA if I remember correctly

- cempa
- That was d00mer.

- DM him briefly about it
- Norman Spear
- Ok you're aware good

- cempa
- We have the added risk now of our national electricity supply collapsing soon. They botched their coal supply system and we now have 5 days worth of stocks at some of our biggest power stations.

- 98% of electricity generation is done by 1 company (state own of course).
- juppi
- And that company is run by blacks right

- cempa
- Yeap. 95% black.

- I shared the general outline of the Suidlanders plan with the others here. It'd sparked alot of discussion and motivated us to consider the possibility of implementing something similar in USA.

- Of course on a much smaller scale
- cempa
- It's a good concept.

- Norman Spear
- Yeah it has alot of merit

- cempa
- The majority of black voters have an extremely low IQ.

- juppi
- Well thats not a big suprise

- cempa
- Chimp out is an apt description but our "protests" make the LA riot look like a picknick party.

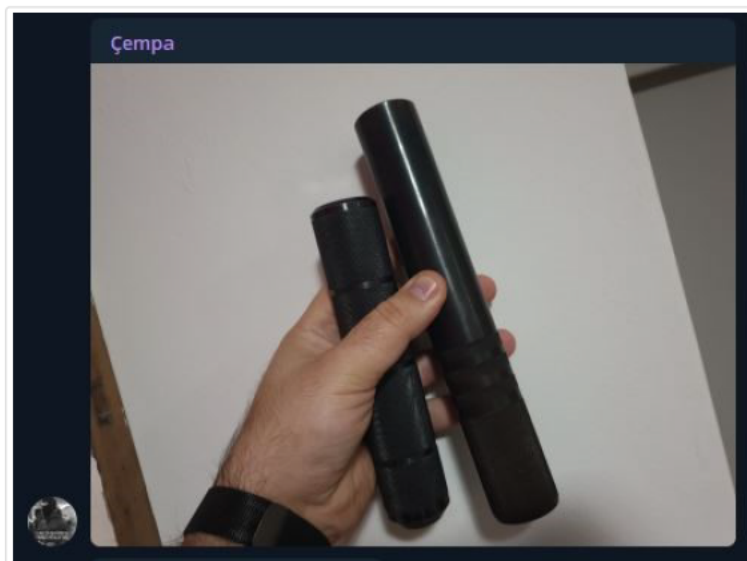

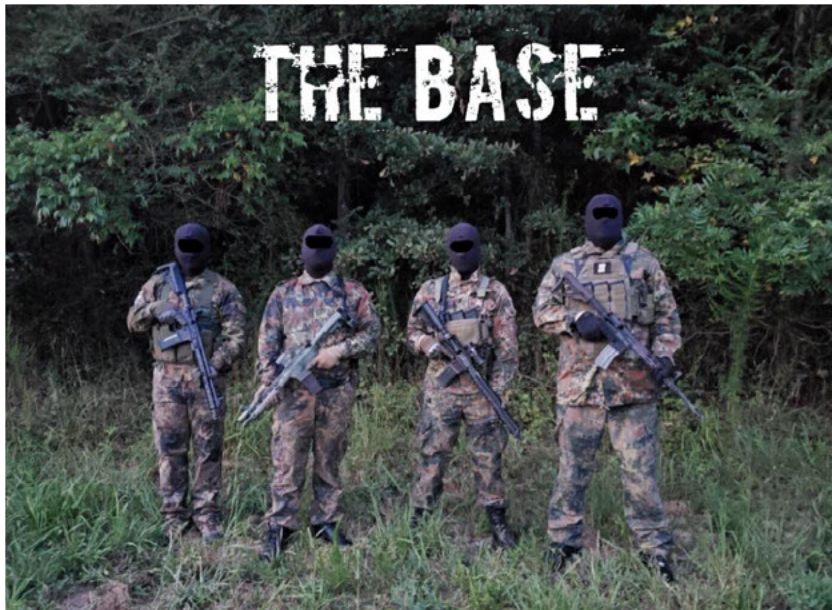

- d00mr
- I hope that our SA friend comes back. I was hoping on meeting him later this year. I'll be traveling there to visit the Suidlanders
- 
- Norman Spear
- He's still around. [cempa](#)
- 
- If you can't get in touch with him here let me know and I'll link you up
- d00mr
- Oh sweet
- 
- doomsayeth
- I'd love to meet the Suidlanders.
- 
- 
- doomsayeth
- I'd love to meet the Suidlanders.
- Their organization is my life goals.

- 
- They estimate it would take 2 months to bootstrap the grid in the event of a cascading failure.
- 2 months of no power would leave this country in pieces
- juppi
- I really want to see all those blacks starve and die out but also I don't want to see you whites dying or having to flee your own lands.
- 
- cempa
- We'll exfil to a position we can defend easier. Most cities would descend into an absolute feeding frenzy.
- 
- We need to hold out for a few weeks by that time they won't have large amounts of serviceable vehicles.
- Norman Spear
- You have a solid survival plan making collapse a good thing in the long run i think
- 
- cempa
- It would be a horrible time but the end result would be an ethno state.
- 
- Norman Spear

Members of the Base seek to obtain a large number of high powered weaponry in addition to acquiring advanced survival skills. Both skill sets are considered useful in the advancement of their Whites only ethno-state goals.

Last year, The Base used the platform Discord for their book club discussions. At the time, the group was reading "Siege," a standard neo-Nazi text for extremists such as Atomwaffen Division members. Recently, the remaining AWD members have publicly shown support for The Base.

One might say that South Africa takes neo-Nazism a little more seriously than the USA. Here, Francois Kemp aka "cempa" describes the use of racial slurs in South Africa and some possible consequences for being exposed.

Francois Kemp aka "cempa" describes the consequences of being a neo-Nazi in South Africa

Francois Kemp aka "cempa" has expressed a desire to visit the USA in the next few months. We don't want him here. Some of the information we have discovered about Francois Kemp will be shared with trusted sources in South Africa for further investigation & reporting.

Our aim is to expose neo-Nazis and the Far Right and disrupt their organizing. By doing this, we seek to decrease their activity, squelch their growth, and lower their threat level to communities.
